MINNESOTA Bulletin 180-7-5

SUBJECT: CTA - Wetland Identifiers on Producer Maps

Purpose. To release additional producer information materials developed to roll-out the revised wetland symbols that will be displayed on USDA Participant maps generated by the FSA Common Land Unit.

Expiration Date. September 30, 2007

National FSA Notice CP-614 provided information regarding new wetland identifier symbology that will now print on producer maps. The first two listed were previously sent out with Minnesota bulletin 180-7-4 and the poster is attached for field offices to use as assistance in explaining this change.

- Wetland Map Symbols Fact Sheet
- Questions and Answers Related to Wetland Point Symbols
- Wetland Map Symbols Poster

The previously provided fact sheet can be given to producers as part of local efforts to publicize the change in symbology. The question and answer sheet was developed during discussions with farm groups on this topic. It can be shared with your SWCD and other partners. The poster can be displayed in an appropriate location(s) in the Service Center.

Under separate distribution FSA offices will also be receiving these materials.

Questions on these materials can be directed to Paul Flynn, State Resource Conservationist at (651) 602-7870.
